

What is the Frontiers International, Foundation?

The Frontiers International Foundation, Incorporated, (the successor to the initial Frontiers International, Vitilago Foundation) was established in 1986 as the fund-raising arm of Frontiers International Incorporated, to help address the total health needs of minorities. As a 501c(3) organization the Foundation is authorized to acquire, collect, receive and invest funds. All donated funds are tax deductible. The foundation supports the health education, research and treatment of Sickle Cell Anemia, hypertension, Breast and Prostate Cancer, HIV-AIDS, Vitiligo, all diseases, which disproportionately affect African Americans. The Foundation also sponsors a National health education and fitness events in the community, year-round. Medical professionals and research experts along with community-based organizations, conduct screenings including blood pressure, vision and podiatry services.

Our Mission: To increase the good health and well being of the minority community, along with volunteering, compassion for individuals and families struggling with the scourges of a variety of afflictions, youth etiquette and mentoring.

Our Objective: To increase educational opportunities for minorities in addressing health related issues through various programs.

Membership in The Foundation enables us to do the following:

1. Health-Related Research
2. Award Matching Club College Scholarships:
3. Health-Related Workshops
4. Financial Support Provided to Health-Research based organizations.
